

ENERGY AND ASTROLOGY READINGS BY SUSAN RAY

My studies and practice of self-transformative arts and technologies began over 30 years ago. I continue to hone these through meditation practice, ongoing studies in organic energy and the nature of Self, exchanges with clients, and the patience and generosity of my teachers and guides.

The intention of these readings is to offer something true and useful, tools that can help you touch gently into your essential nature that you may come fuller to life, empowerment, happiness, and wholeness.

ENERGY READINGS ASTROLOGY

Susan's work is a beautiful blend of science and ancient art. She is a wise and compassionate guide through the territories of healing, personal growth, and transformation.

Woodstock, NY

ENERGYREADING

A detailed scan of your energy field and major chakras towards understanding the dynamics of the physical, emotional, mental, and spiritual aspects of your being. Specific suggestions are offered as to how to enhance your strengths, release tensions and blocks, and "go with the flow" of your unique energy system.

ASTROLOGICALREADING

A detailed, in-depth exploration of your unique physical, emotional/psychological, intellectual, creative, and spiritual gifts, the obstacles to their expression, and how those obstacles can be transformed into strengths.

Depending on your needs, this reading may also include an analysis of present and future movements of the planets and how those energies may be felt and best used in your life; and/or an analysis of your chart in relationship to the chart of another—a partner, parent, child, or friend—towards greater understanding and harmony.

Readings may be in person or by telephone.

TALISMAN TO BRING
HAPPINESS AND GOOD FORTUNE

Susan gave me accurate insights into my patterns of emotions and behavior, as if she had watched a video spanning my lifetime. Then she gave me a constructive assessment of what I could do to change what was hindering my growth.

Tom Harrington New York, NY

Susan offers a rare blend of deep wisdom and an open heart. Her reading left me with a sense of greater wholeness and a renewed faith in my life.

Kathryn Wilder, Ph.D. Angel's Camp, CA

Susan is a wise and knowledgeable woman with a broad understanding of the healing arts. But what is extraordinary is the voice of the sibyl that speaks through her, carrying awesome knowledge of the person whose life she is reading, making clear hidden paths, forgotten motives, distant dreams, casting a light of truth into that person's consciousness. Her long discipline of meditation has cleared her mind so that she can be a crystal clear voice. She has helped me and my friends in direct, as well as subtle, indirect ways.

Peter Nicholson Matlacha, FL

I had a reading from Susan on my birthday that has set the tone for the year: upbeat and hopeful. Not only that, but she told me how to fix my sore neck—and I didn't even ask. So my new year is upbeat, hopeful, and pain-free.

Sally Warren Grafton, VT

Before making major decisions, I always rely on Susan to analyze my situation.

Phyllis Stewart Boston, MA

The reading I received was like an X-ray of my soul. Susan's clarity and her no-nonsense approach, coupled with a love and caring purified by a lifetime of work on herself, invite the movement of stuck energy. Through her sensitivity to my process and her guides' respect for the seriousness of my intent, I was able to accept and implement several practical suggestions that have benefited me enormously.
